SAFETY DATA SHEET

1 Identification of the substance/mixture and of the company/undertaking

Product Name: **Phaser 7750, Phaser 7760 TONER (Black, Cyan, Magenta, Yellow)**
Datasheet Number: 3-1170 1. 1. 6
Product Part Number: 106R00652, 106R00653, 106R00654, 106R00655
106R01160, 106R01161, 106R01162, 106R01163
106R01164, 106R01165, 106R01166, 106R01167
Chemical Name: None

Name of Supplier: Fuji Xerox Australia Pty Limited
Address of Supplier: 546 Gardeners Road
Alexandria
NSW 2015

Telephone: (02) 9364 5100 (24hrs)
Fax:
Responsible Person: Manager, Environment, Health & Safety, OHS Manager
Email: OHSenquiries@aus.fujixerox.com

Name of Manufacturer: Xerox Ltd.
Address of Manufacturer: Bessemer Road
Welwyn Garden City
Herts. AL7 1BU
UK
Telephone: +44 (0) 1707 353434

Emergency Telephone: Not applicable

2 Hazards identification

- Not Classified as Hazardous According to Criteria of Worksafe Australia

3 Composition/information on ingredients

Chemical Name	Concentration	CAS Number	R/H Phrases	Symbols
Resin	>60 %	Confidential	None	None
Frits	15-20 %	66402-68-4	None	None
Polyethylene wax	1-5 %	8002-74-2	None	None
Pigment	<1-5 %			
- black		1333-86-4	None	None
- blue		Confidential	None	None
- red		Confidential	None	None
- yellow		Confidential	None	None
Additives	<10 %	-	None	None

4 First aid measures

Contact with skin

- Wash with soap and cold water

Contact with eyes

- If substance has got into eyes, immediately wash out with plenty of water

4 First aid measures (....)

Ingestion

- Give 200-300mls (half pint) water to drink

Inhalation

- Remove patient to fresh air

5 Fire-fighting measures

- Flash point - not applicable
- Products of combustion include oxides of carbon and toxic organic fumes

6 Accidental release measures

Immediate Actions

- Toner, as with any fine dust, if suspended in air in the right proportion, can present an explosion hazard. Therefore, if a cloud is formed by accident, all sources of ignition should be removed until the spill is dealt with.

Methods and material for containment and cleaning up

- Use a vacuum cleaner to remove excess, then wash with COLD water. Hot water fuses the toner making it difficult to remove

7 Handling and storage

Precautions for safe handling

- No special precautions are required for this product

Conditions for safe storage, including any incompatibilities

- Keep in a cool, dry place

8 Exposure controls/personal protection

Control parameters

- Xerox Exposure Limits: 2.5 mg/m3 (8hr TWA) total inhalable dust; 0.4 mg/m3 (8hr TWA) total respirable dust

Exposure controls

- No special precautions are required for this product

Occupational exposure controls

- No special precautions are required for this product

9 Physical and chemical properties

- Appearance: Powder (black, blue, red or yellow)
- Odour: Slight odour
- pH - not applicable
- Boiling point - not applicable
- Vapour pressure - not applicable
- Vapour density - not applicable
- Insoluble in water
- Specific gravity (water=1) ~1

9 Physical and chemical properties (....)

- Flash point - not applicable

10 Stability and reactivity

- Stable
- Incompatibility with other materials: Avoid contact with strong oxidising agents

11 Toxicological information

Inhalation

- Tests on toners containing similar materials indicate no evidence of acute inhalation toxicity

Contact with skin

- Tests on toners containing similar materials indicate no evidence of acute dermal toxicity; non-irritating and non-sensitising in human patch test

Contact with eyes

- Tests on toners containing similar materials indicate non-irritating to rabbit eye mucosa

Ingestion

- Tests on toners containing similar materials indicate no evidence of acute oral toxicity

Carcinogenicity

- Carcinogens: None present

Mutagenicity

- No evidence of mutagenicity in Ames test

12 Ecological information

Ecotoxicity

- On available data, substance is not harmful to aquatic life

Persistence and degradability

- Not readily biodegradable

Bioaccumulation Potential

- Bioaccumulation is insignificant

Mobility in soil

- Insoluble in water

Other Adverse Effects

- Presents little or no hazard to the environment

13 Disposal considerations

Waste treatment methods

- No special precautions are required for this product
- Landfill is the recommended method of disposal
- If incineration is to be carried out, care must be exercised to prevent dust clouds forming

14 Transport information

- Not classified as hazardous for transport

15 Regulatory information

Classification and labelling

- Not classified as hazardous for supply
- No transport or user labelling is required

Safety, health and environmental regulations/legislation specific for the substance or mixture

Not Classified as hazardous according to criteia of Worksafe Australia
Not classified as hazardous according to criteria of NOHSC

16 Other information
