

SAFETY DATA SHEET

ECO MANUAL WASHING UP DETERGENT

Infosafe No.: 7EF7F
ISSUED Date : 06/11/2023
ISSUED by: JASOL AUSTRALIA

NOT CLASSIFIED AS HAZARDOUS

Section 1 - Identification

Product Identifier

ECO MANUAL WASHING UP DETERGENT

Product Code

2002040

Company Name

JASOL AUSTRALIA

Address

41-45 Tarnard Drive Braeside
VIC 3195 AUSTRALIA

Telephone/Fax Number

Tel: 03 95805722

Fax: 03 95809902

Emergency Phone Number

1800 629 953

Recommended use of the chemical and restrictions on use

Use as a sink dishwashing detergent and as a general purpose detergent. Use as per directed on product label.

Additional Information

For advice in emergencies contact:

Poisons Information Centre (Australia): 131 126

National Poisons Centre (New Zealand): 0800 764 766

Other Information

Jasol (a division of George Weston Foods Limited) believes the information in this document to be accurate as at the date of preparation noted in the header of the SDS, but to the maximum extent permitted by law, Jasol accepts no responsibility for any loss or damage caused by any person acting or refraining from action because of this information.

The provision of this information should not be construed by anyone as a recommendation to use this product. In particular, no one should use any product in violation of any patent or other intellectual proprietary rights or in breach of any statute or regulation.

Users should rely on their own knowledge and inquiries and make their own determination as to the applicability of this information in relation to their particular purposes and specific circumstances. Each user should read this SDS and consider the information in the context of how the product will be handled and used in the workplace and in conjunction with other substances or products.

Section 2 - Hazard(s) Identification

GHS classification of the substance/mixture

Not classified as Hazardous according to the Globally Harmonised System of Classification and Labelling of Chemicals (GHS) including Work, Health and Safety regulations, Australia.

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Section 3 - Composition and Information on Ingredients

Ingredients

Name	CAS	Proportion
Water	7732-18-5	80-90 %
Sodium laureth sulphate	68585-34-2	<5 %
1-Propanaminium, N-(3-aminopropyl)-2-hydroxy-N,N-dimethyl-3-sulfo-, N coco acyl derivatives, hydroxides, inner salts	68139-30-0	<2 %
Amides, C8-18 (even numbered) and C18-unsatd., N, N-bis(hydroxyethyl)	68603-42-9	<2 %
D-Glucopyranose, oligomeric, C10-16-alkyl glycosides	110615-47-9	<2 %
D-Glucopyranose, oligomers, decyl octyl glycosides	68515-73-1	<1 %
Glycine, N-(hydroxymethyl)-, monosodium salt	70161-44-3	<0.2 %
Ingredients determined not to be hazardous		Balance

Section 4 - First Aid Measures

Inhalation

Remove from exposure.

Ingestion

Do NOT induce vomiting. Wash/rinse out mouth thoroughly with water. Seek medical attention.

Skin

When handling industrial quantities, if skin contact occurs, remove contaminated clothing and wash skin thoroughly.

Eye

If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

First Aid Facilities

Eye wash station and normal washroom facilities.

Advice to Doctor

Product is a dilute aqueous solution of mixed surfactants. Vomiting has not been induced because of risk of aspiration into the lungs. Treat symptomatically.

Most important symptoms/effects, acute, delayed and aggravated medical conditions

No adverse health effects expected if the product is handled in accordance with this MSDS and the product label.

Other Information

For advice in emergencies contact:

Poisons Information Centre (Australia): 131 126

National Poisons Centre (New Zealand): 0800 764 766

Section 5 - Firefighting Measures

Suitable Extinguishing Media

Use extinguishing media appropriate to surrounding fire.

Hazards from Combustion Products

Under fire conditions this product may emit:

Water vapour

Carbon dioxide

Oxides of nitrogen

Oxides of sulphur.

Specific hazards arising from the chemical

Not a fire hazard. Not an explosion hazard.

Section 6 - Accidental Release Measures

Clean-up Methods - Small Spillages

If local regulations permit, mop up with plenty of water and run to waste, diluting greatly with running water. Otherwise, absorb on inert absorbent, transfer to container and arrange removal by disposals company. Wash site of spillage thoroughly with water.

Clean-up Methods - Large Spillages

Liquid should be contained using sand or earth and transferred to salvage containers. Residues should be treated as for small spillages.

Section 7 - Handling and Storage

Precautions for Safe Handling

For normal use as a sink dishwashing detergent, no Personal Protective Equipment (PPE) is required.

Always maintain a high level of personal hygiene when using cleaning chemicals. That is wash hands before eating, drinking, smoking or using the toilet.

If Handling large quantities of undiluted product, or if exposed to skin contact with diluted product for extended periods of time, use PPE listed in section 8.

Conditions for safe storage, including any incompatibilities

Store out of reach of children. Large quantities should be stored in a bunded area. Store in original container. Protect from physical damage. Clean up all spills and splashes promptly; avoid secondary accidents. Avoid storage and exposure of chemicals to heat or direct sunlight

Section 8 - Exposure Controls and Personal Protection

Occupational exposure limit values

No exposure limits have been established for this product.

Biological Monitoring

No biological limits have been established for this product.

Engineering Controls

None for normal use.

Personal Protective Equipment

If handling large quantities where there is a risk of splashing undiluted product, safety glasses should be used. Safety glasses should conform with the Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.

If exposed to skin contact with diluted product for extended periods of time, rubber or plastic gloves should be used. Gloves should conform with the Australian/New Zealand Standard AS/NZS 2161.1 - Occupational protective gloves - Selection, use and maintenance

Section 9 - Physical and Chemical Properties

Properties	Description	Properties	Description
Form	Viscous liquid.	Colour	Pink.
Odour	Odourless.	Boiling Point	Approximately 100°C.
Solubility in Water	Soluble in water in all proportions.	Specific Gravity	1.0
pH	6-7	Flammability	Not flammable.

Section 10 - Stability and Reactivity

Chemical Stability

Product is chemically stable.

Incompatible Materials

Compatible with all materials.

Section 11 - Toxicological Information

Toxicology Information

No toxicology data available for this material. Available toxicology data for individual ingredients is listed below.

Acute Toxicity - Oral

Sodium laureth sulphate (CAS: 68585-34-2):

LD50 Oral (rat): >2000mg/kg.

Glycine, N(Hydroxymethyl)-, Monosodium Salt (CAS: 70161-44-3):

LD50 Oral (rat): 2,100 mg/kg.

Acute Toxicity - Inhalation

Glycine, N(Hydroxymethyl)-, Monosodium Salt (CAS: 70161-44-3):

LC50 Inhalation (rat): 6.0 mg/l Exposure time: 4.5

Ingestion

May cause gastric upset with nausea and vomiting.

Inhalation

An unlikely route owing to the non-volatile nature of ingredients. Aspiration into the lungs during swallowing or vomiting may lead to chemical pneumonitis.

Skin

Will have a degreasing effect on the skin. Prolonged contact with the concentrate may cause irritation.

Eye

Non-irritant.

Respiratory Sensitisation

No data available.

Skin Sensitisation

No data available.

Germ Cell Mutagenicity

Not considered to be a mutagenic hazard.

Carcinogenicity

Not considered to be a carcinogenic hazard.

Reproductive Toxicity

Not considered to be toxic to reproduction.

STOT - Single Exposure

Not expected to cause toxicity to a specific target organ.

STOT - Repeated Exposure

Not expected to cause toxicity to a specific toxic organ.

Aspiration Hazard

Not considered to be an aspiration hazard.

Section 12 - Ecological Information

Ecological Information

Product is GECA (Good Environmental Choice Australia) certified. Product is based on readily biodegradable surfactants. Contains ingredients based on renewable resources i.e. plant based raw materials.

Section 13 - Disposal Considerations

Waste Disposal

Land fill, incineration, sewer (small quantities). Refer to Land Waste Management Authority in your State.

Section 14 - Transport Information

Transport Information

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition)

Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.

UN Number

None Allocated

Proper Shipping Name

None Allocated

Transport Hazard Class

None Allocated

Section 15 - Regulatory Information

Poisons Schedule

Not Scheduled

Section 16 - Any Other Relevant Information

Date of Preparation

SDS Created: 19 June 2019.

Literature References

Globally Harmonised System of classification and labelling of chemicals (5th edition).

Preparation of Safety Data Sheets for Hazardous Chemicals Code of Practice.

Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP 23).

Contact Person/Point

The company has taken care in compiling this information. No liability is accepted whether direct or indirect from its application since the conditions of final use are outside the Company's control. The end user is obliged to conform to relevant government regulations and/or patent laws applicable in their respective States of Countries.

24-Hour Emergency Telephone: AUS: 1800 629 953 NZ: Poisons 0800 764 766, Spills 111 FIRE.

Other Information

Key/Legend:

LD50: Lethal Dose, 50 percent. The amount of substance required to kill 50% of test organisms.

LC50: Lethal Concentration, 50 percent. The concentration of substance required to kill 50% of the population.
