CLAX®

DS Desotherm

3ZP13

Fully built antibacterial laundry detergent

Description

Clax® DS Desotherm is an enzymatic, phosphate free main wash detergent that meets the Australian Standard AS/NZS 4146-2000, Section 3.5.3 of the Laundry Practice standard. Clax® DS Desotherm at 40°C and a dosage rate of 10g per Kg of dry laundry will dramatically reduce bacteria, yeasts and moulds counts from cotton toweling. Kills >99.9% of germs.

Clax® DS Desotherm has been specially formulated for use in commercial and on-premise laundries and for automatic and manual dosing and can be used in all water hardnesses. Clax® DS Desotherm is suitable for washing all white cotton and polycotton fabrics and colourfast articles.

Features

Clax® DS Desotherm is an enzymatic, phosphate free detergent powder based on an effective blend of surfactants, water hardness sequestrates, anti greying and anti-corrosion agents. The product also contains a low temperature bleaching system that features synergized oxygen bleaches.

The product is excellent in fatty/oil soil removal and also in the removal of particulate soil. It can be used with most common water hardnesses without losing washing performance.

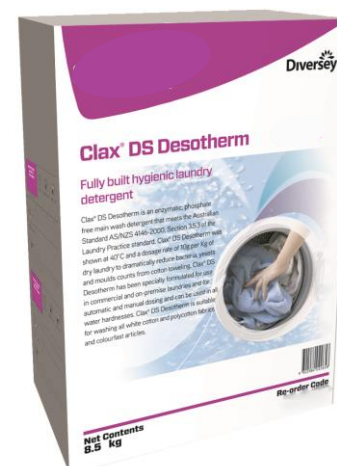

Clax® DS Desotherm kills >99.9% of germs and is ideally suited for cleaning fabrics in hospitals, aged care facilities and in hotels.

Benefits

- Excellent Performance on a wide range of stains and soils.
- Antibacterial – kills >99.9% of germs.
- Good whiteness of linen, prevents greying.
- Effective low temperature bleaching with minimum fabric damage.
- Effective on blood and food stains.
- Prevents corrosion of washing machine parts.
- Low temperature washing means saving in energy consumption.
- Saves water by removing rinse cycles from the laundry process.

Application areas

- Healthcare
- Lodging
- Government
