Probiotic cleaning for a fresher, odour free washrooms using next-generation fermentation-derived biosurfactant, plant-derived organic acid and biodegradable performance additives.

DROP IT IN.

SHAKE IT UP.

CLEAN IT NATURALLY.

1 sachet makes 750 ml of ready-to-use cleaning solution

EASY. EFFECTIVE. SUSTAINABLE.

Key

Naturally derived

Formulated using plant-based ingredients for a safer tomorrow.

Biotechnology powered

Advanced biological technology eliminates odours at the source.

Low environmental impact

Biodegradable formula that's gentle on the planet.

Safe & effective

Non-corrosive, safe to use and delivers high performance. Septic & Greywater safe.

High standards of hygiene

Helps maintain cleaner, fresher and more hygienic environments.

Product Description

Designed specifically for washrooms and high-moisture environments, Hypagreen Multi Surface Washroom Cleaner targets soap scum, body oils and everyday grime from sinks, showers, toilets, tiles, partitions and hard surfaces. Powered by probiotics, it continues breaking down organic residues after cleaning, helping maintain fresher, cleaner washrooms while reducing odours naturally.
