

CABLE MANAGEMENT FOR CARPETS

Minimise the risk of trips in the workplace, or easily conceal unsightly cords with the amazingly versatile Secure Cord Cover.

Easy to use

Simply lay a strip of Secure Cord over your cords and the hooks on the underside grip the carpet to secure everything in place.

Cords can then be reconfigured if required, as single cords can enter or exit the covering with ease.

Re-usable over 1000 times, machine washable and a fraction of the price of other carpet cord covers. Secure Cord is a must have for any office, boardroom, meeting room or public space.

An original design makes Secure Cord the thinnest cord cover of its type and its 'cut-to-length' flexibility avoids the constraints of similar cord covers.

The genius in this product is its simplicity and ability to do a great job while using a minimal amount of materials, ensuring **fantastic value for money.**

KEY POINTS:

- 100mm wide
- Comes in handy dispenser box
- Available in 25m and 5m rolls
- Available in yellow (highlights cords) or black (hides them)
- Cut to any length you desire
