

## PRODUCT INFORMATION

Muru 10% Recycled Copy Paper is a sustainable and high-quality choice for everyday printing and copying needs. Made from 10% post-consumer recycled fibres, this A4 paper offers reliable performance in photocopiers, laser, and inkjet printers, making it ideal for offices focused on sustainability. Packaged in a carton of 5 reams, it's PEFC certified and helps reduce your environmental footprint without compromising on quality.

Muru Group is a Supply Nation certified business committed to supporting First Nations communities initiatives across Australia. Each purchase of a Muru Group product provides direct social and economic support to First Nations families. COS is proud to be the exclusive supplier of the Muru Group range.

Being Certified Carbon Neutral means that no net carbon dioxide is released into the atmosphere over the products lifecycle. Typically, this means that the carbon emissions are offset, by compensating for emissions through the purchase of units in carbon credit projects.

Programme for the Endorsement of Forest Certification, promoting sustainable forest management through the entire supply chain.

Mill accredited with ISO 9001 and ISO 14001 ISO 9001:2008 for Quality Management System ISO 14001:2004 for Environment Management System.

Made from raw materials consisting of 10% recycled fibre. Recycled fibre content is made from 10% post-consumer waste.

\*Our innovative new Recyclable Wrap Coating Technology meets the European Standard for plastic free

Supply Nation works with Aboriginal and Torres Strait Islander businesses along with procurement teams from government and corporate in Australia to help shape today's emerging and rapidly evolving indigenous business sector.
