

Technical Data Sheet

SpillEx

Product Number

146761

Product classification

Disposable floor cloth

Composition

- Top side: Polypropylene spun bond non-woven (hydrophilic treatment)
- Inner core: Tissue with super absorbent particles
- Bottom side: Polyethylene foil

Technical data

	Typical value	Unit
Weight	45	g
Size of cloth	51 x 37	cm
Total absorbency per cloth, tap water	1.2	L
Total absorbency per cloth, NaCl 0.9 %	0.5	L

Product properties and product usage

- Highly absorbent cloth ideal for removal of all kind of water based spills from hard floors.
- Ultra-thin construction for fast excess of liquid to absorbent core.
- Water-impermeable foil on bottom side for hygienic removal after use.
- High concentration of super absorbent particles. These particles are designed to hold a high volume of liquid without dripping.
- One cloth is suitable to absorb 500 – 1200 mL of fluid spill application situation.
- Good absorbency on blood and urine, and a very high absorbency on water.
- Ideal for a pre cleaning to remove liquid contaminations. This needs to be followed by a mopping cleaning step.
- Applications areas examples:
 - Blood spills in hospitals
 - Urine spills in Aged Care homes
 - Spills in supermarkets and shopping malls (eating areas), and much more.

Application

- Place with non-woven side on the spill for 30 – 120 seconds, depending on liquid composition.

Storage, transportation and disposal

Keep palletized products in a cold and dry place. Avoid exposure to direct sunlight. Product is not subject to transportation regulations for hazardous substances or chemicals. Disposal via landfill or incineration possible.

Quality approvals / compliance with international standards

- This product is manufactured conforming to appropriate standards within FHCS Quality System.
- SpillEx is not made from hazardous material.
